Dear Mr. Katz;

I wanted to express my sincere thanks for the assistance rendered by your Technical Support Team, especially Mr. George Brociner, after the expertise and software from your company was required. During the course of an official State Police criminal investigation, members of our Bureau of Criminal Investigation requested that surveillance video involving the alleged perpetrators be recorded from an area store. The immediate and complete assistance rendered by Mr. Brociner allowed the State Police Computer Crimes Unit to accommodate the request in a timely fashion.

Thank you again for the assistance given by your employees.

Sincerely,

Investigator Gerald Meyer  
Computer Crime Unit, Troop "L"
